A

Ablation
New micro vertical scissors for the surgical ablation of retinal angiomatous proliferation, 377

Recurrent retinal angiomatous proliferation after surgical ablation, 917

Acetazolamide
Use of acetazolamide in idiopathic intracranial hypertension during pregnancy, 855

Acrylic intraocular lens
Pigmented-membrane formation on acrylic intraocular lens after phacoemulsification, 912

Acute lymphoblastic leukemia
Acute unilateral leukemic hypopyon in an adult with relapsing acute lymphoblastic leukemia, 719

Anterior chamber infiltration in a patient with Ph+ acute lymphoblastic leukemia in remission with imatinib, 723

Serous retinal detachment in an elderly patient with Philadelphia-chromosome-positive acute lymphoblastic leukemia, 348

Acute myeloid leukemia
Corneal pseudomembrane from acute inflammatory response and fibrin formation to acute myeloid leukemic infiltrate, 921

Adenoma
Adenoma arising from nonpigmented ciliary epithelium concomitant with neovascularization of the optic disk and cystoid macular edema, 188

Adolescents
Macular holes secondary to epiretinal membrane in a juvenile patient, 357

Age-related macular degeneration
Age-related macular degeneration 1969–2004: a 35-year personal perspective, 405

Challenges and surprises of studying the genetics of age-related macular degeneration (editorial), 908

Comparing age-related macular degeneration phenotype in probands from singleton and multiplex families, 820

Expression of VEGF and angiopoietins in subfoveal membranes from patients with age-related macular degeneration, 589

Intereye difference in exudative age-related macular degeneration with minimally classic or occult subfoveal neovascularization after unilateral intravitreal injection of triamcinolone acetonide, 1073

Prospective evaluation of digital non-stereo color fundus photography as a screening tool in age-related macular degeneration, 455

Regression of neovascular age-related macular degeneration following infliximab therapy, 537

Sociodemographic factors and age-related macular degeneration in Latinos: The Los Angeles Latino Eye Study, 30

Vision-related quality of life in patients suffering from age-related macular degeneration, 271

Age-related maculopathy
Pterygium/pinguecula and the five-year incidence of age-related maculopathy, 536

AIDS
Incidence of cytomegalovirus (CMV) retinitis in second eyes of patients with the acquired immune deficiency syndrome and unilateral CMV retinitis, 1028

Alkanes
Induction of apoptosis in rat retinal cell cultures by partially fluorinated alkanes, 737

Allografts
Device to facilitate limbal stem cell procurement from eye bank donor tissue for keratolimbal allograft procedures, 212

Alpha-tocopherol
Alpha-tocopherol in plasma, red blood cells and lenses with and without cataract, 266

Amaurosis
Gaze-evoked amaurosis from vitreopapillary traction, 631

Amblyopia
Visual prognosis of amblyopia associated with myelinated retinal nerve fibers, 259

Amniotic membrane patching
Clinical evaluation of the accuracy of intraocular pressure measurement by Tono-Pen XL in eyes with amniotic membrane patching, 570

Angiomyxoma
Solitary superficial angiomyxoma in the eyelid, 1141

Angiopoietin 2
Vitreous levels of angiopoietin 2 and vascular endothelial growth factor in patients with proliferative diabetic retinopathy, 476

Angiopoietins
Expression of VEGF and angiopoietins in subfoveal membranes from patients with age-related macular degeneration, 589

Anterior chamber
Anterior chamber infiltration in a patient with Ph+ acute lymphoblastic leukemia in remission with imatinib, 723

Intracameral triamcinolone helps to visualize and remove the vitreous body in anterior chamber in cataract surgery (letter), 756

Anterior scleritis
Celecoxib, a selective inhibitor of cyclooxygenase 2 for therapy of diffuse anterior scleritis, 1086

Anterior uveitis
Development of complications in patients with chronic anterior uveitis, 988

Uveitis-associated flap edema and lamellar interface fluid collection after LASIK, 1137

Antibiotics
Antibiotic susceptibility of preoperative normal conjunctival bacteria, 730

Failure of systemic antibiotic in preventing sequential endogenous endophthalmitis of a bronchiectasis patient, 549

Retained antibiotic ophthalmic ointment on an intraocular lens 34 months after sutureless cataract surgery, 743

Retrospective study of endophthalmitis rates comparing quinolone antibiotics, 141

0002-9394/05/$30.00

© 2005 BY ELSEVIER INC. ALL RIGHTS RESERVED.

Antibodies
Anti-α-enolase antibodies in cancer-associated retinopathy with small cell carcinoma of the lung, 746

Antienolase antibodies
Anti-α-enolase antibodies in cancer-associated retinopathy with small cell carcinoma of the lung, 746

Clinical and electrophysiologic characterization of paraneoplastic and autoimmune retinopathies associated with anti-enolase antibodies, 780

Apoptosis
Induction of apoptosis in rat retinal cell cultures by partially fluorinated alkanes, 737

Photoreceptor apoptosis in human retinal detachment, 605

Applanation contact lens
Ocular surface changes after the use of applanation contact lens in diabetic patients (letter), 757

Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Argon laser iridoplasty
Argon laser iridoplasty in the treatment of plateau-like iris configuration as result of numerous ciliary body cysts, 381

Argon laser photocoagulation
Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Arteriovenous sheathotomy
Effect of arteriovenous sheathotomy on retinal blood flow and macular edema in patients with branch retinal vein occlusion, 739

Vitrectomy with or without arteriovenous adventitial sheathotomy for macular edema associated with branch retinal vein occlusion (letter), 1146

Artifacts
Artifacts in optical coherence tomography topographic maps (editorial), 154

Evaluation of image artifact produced by optical coherence tomography of retinal pathology, 18

Astigmatic keratoplasty
Long-term histopathologic findings in human corneal wounds after refractive surgical procedures, 168

Astigmatism
Choosing the location of corneal incision based on preexisting astigmatism in phacoemulsification, 767

Comparison of two techniques of marking the horizontal axis during excimer laser keratorefractive surgery for myopia astigmatism, 735

Laser in situ keratomileusis for primary and secondary mixed astigmatism, 1019

Repeat keratoplasty for correction of high or irregular postkeratoplasty astigmatism in clear corneal grafts, 826

Ataxia
Anatomical and functional characteristics in atrophic maculopathy associated with spinocerebellar ataxia type 7, 923

Atrophic maculopathy
Anatomical and functional characteristics in atrophic maculopathy associated with spinocerebellar ataxia type 7, 923

Atypical birefringence pattern
Quantitative assessment of atypical birefringence images using scanning laser polarimetry with variable corneal compensation, 437

Autoimmune lymphoproliferative syndrome
Bilateral uveitis in a patient with autoimmune lymphoproliferative syndrome, 562

Autoimmune retinopathy
Clinical and electrophysiologic characterization of paraneoplastic and autoimmune retinopathies associated with anti-enolase antibodies, 780

Axial length
Corneal thickness and axial length, 553

B

Bacteria
Antibiotic susceptibility of preoperative normal conjunctival bacteria, 730

Bacterial endophthalmitis
Eye-banking risk factors for fungal endophthalmitis compared with bacterial endophthalmitis after corneal transplantation, 685

Baerveldt glaucoma implant
Experience with the Baerveldt glaucoma implant in the management of pediatric glaucoma, 847

Bartter's syndrome
Sclerochoroidal calcification in a patient with classic Bartter's syndrome, 365

Best's disease
Optical coherence tomography in Best's disease: an observational case report, 351

Beta blockers
Interleukin-1ß tear concentration in glaucomatous and ocular hypertensive patients treated with preservative-free nonselective beta-blockers, 72

Medication use and retinal vessel diameters, 373

Bietti's crystalline corneoretinal dystrophy
Screening for mutations in *CYP4V2* gene in Japanese patients with Bietti's crystalline corneoretinal dystrophy, 894

Bilateral diffuse uveal melanocyte proliferation
Cancer-associated nummular loss of the pigment epithelium, 933

Bimatoprost
Corneal sensitivity changes following the instillation of latanoprost, bimatoprost, and travoprost eyedrops, 742

Bioceramic orbital implants
Primary placement of a hydroxyapatite-coated sleeve in Bioceramic orbital implants, 235

Primary placement of a hydroxyapatite-coated sleeve in Bioceramic orbital implants (editorial), 333

Biomarkers
Measurements, biomarkers, and interpretation (editorial), 710

Biomedical publishing
Open Access initiative in scientific and biomedical publishing: fourth in the series on editorship, 156

Bird's-eye analysis
New method for comprehensive bird's-eye analysis of the surgically excised internal limiting membrane, 1121

Birefringence pattern
Quantitative assessment of atypical birefringence images using scanning laser polarimetry with variable corneal compensation, 437

Blindness
Optic nerve massaging: an extremely rare cause of self-inflicted blindness, 715

Total blindness from presumed optic nerve melanocytoma, 1113

Bone
Bone from an orbital floor fracture causing an intraocular foreign body, 543

Botulinum toxin
Contralateral botulinum injections improve drinking ability and facial symmetry in patients with facial paralysis, 540

Branch retinal vein occlusion
Effect of arteriovenous sheathotomy on retinal blood flow and macular edema in patients with branch retinal vein occlusion, 739

Intravitreal versus retrobulbar injections of triamcinolone for macular edema associated with branch retinal vein occlusion, 972

Multiple laser treatments for macular edema attributable to branch retinal vein occlusion, 653

Vitrectomy with or without arteriovenous adventitial sheathotomy for macular edema associated with branch retinal vein occlusion (letter), 1146

Branchio-oculo-facial syndrome
New ophthalmic manifestations of branchio-oculo-facial syndrome, 362

Bronchiectasis
Failure of systemic antibiotic in preventing sequential endogenous endophthalmitis of a bronchiectasis patient, 549

B-scan ultrasonography
Stage 3 macular hole: role of optical coherence tomography and of B-scan ultrasonography, 814

C

Cadmium
Heavy metal concentrations in human eyes, 888

Calcific band keratopathy
EDTA chelation for calcific band keratopathy (letter), 216

***Calotropis procera* keratitis**
Calotropis procera (Ushaar) keratitis, 199

Canalicular obstruction
Outcome of external dacryocystorhinostomy combined with membranectomy of a distal canalicular obstruction, 1051

Cancer
Cancer-associated nummular loss of the pigment epithelium, 933

Cancer-associated retinopathy
Anti-α-enolase antibodies in cancer-associated retinopathy with small cell carcinoma of the lung, 746

Capillary nonperfusion
Clinical examination accurately locates capillary nonperfusion in diabetic retinopathy, 555

Capsular hypopyon
Staphylococcus hominis endophthalmitis associated with a capsular hypopyon, 930

Case series
Improving the reporting of clinical case series (editorial), 900

Caspofungin
Management of endogenous fungal endophthalmitis with voriconazole and caspofungin, 135

Cataract(s)
Alpha-tocopherol in plasma, red blood cells and lenses with and without cataract, 266

Cataract progression after intravitreal triamcinolone injection, 993

Detecting cataract causing visual impairment using a nonmydriatic fundus camera, 725

Inflow of ocular surface fluid through clear corneal cataract incisions: a laboratory model (letter), 392, 576, 753

Pterygium, pinguecula and the 5-year incidence of cataract, 1126

Vitrectomy surgery increases oxygen exposure to the lens: a possible mechanism for nuclear cataract formation, 302

Cataract surgery
Acute-onset endophthalmitis after cataract surgery (2000–2004): incidence, clinical settings, and visual acuity outcomes after treatment, 370, 983

Importance of the refractive aspects of cataract surgery (editorial), 906

Intracameral triamcinolone helps to visualize and remove the vitreous body in anterior chamber in cataract surgery (letter), 756

Nocardia endophthalmitis after cataract surgery: clinicomicrobiological study, 837

Postoperative corneal swelling correlates strongly to corneal endothelial cell loss after phacoemulsification cataract surgery, 1035

Retained antibiotic ophthalmic ointment on an intraocular lens 34 months after sutureless cataract surgery, 743

Celecoxib
Celecoxib, a selective inhibitor of cyclooxygenase 2 for therapy of diffuse anterior scleritis, 1086

Central cloudy corneal dystrophy of Francois
Laser in situ keratomileusis in a patient with presumed central cloudy corneal dystrophy of Francois, 376

Central corneal thickness
Central corneal thickness and measured IOP response to topical ocular hypotensive medication in the Ocular Hypertension Treatment Study (letter), 1148

Central retinal artery occlusion
Central retinal artery occlusion after radial optic neurotomy in a patient with central retinal vein occlusion, 206

Central retinal vein occlusion
Central retinal artery occlusion after radial optic neurotomy in a patient with central retinal vein occlusion, 206

Central retinal vein occlusion with further reduction of retinal blood flow one year after radial optic neurotomy, 926

Intravitreal triamcinolone acetonide for cystoid macular edema in nonischemic central retinal vein occlusion, 860

Central serous chorioretinopathy
Current and future role of photodynamic therapy in chronic central serous chorioretinopathy (letter), 393

Foveal photoreceptor layer and visual acuity loss in central serous chorioretinopathy, 87

High-resolution ultrasonography in central serous chorioretinopathy, 550

Central visual function
Central visual function and the NEI-VFQ-25 Near and Distance Activities subscale scores in people with type 1 and 2 diabetes, 1042

Child abuse
Blinding keratoconjunctivitis and child abuse, 190

Children
Clinical characteristics and surgical outcomes of pediatric rhegmatogenous retinal detachment in Taiwan, 1067
Experience with the Baerveldt glaucoma implant in the management of pediatric glaucoma, 847
Macular and retinal nerve fiber layer analysis of normal and glaucomatous eyes in children using optical coherence tomography, 509
Macular holes secondary to epiretinal membrane in a juvenile patient, 357
New ophthalmic manifestations of branchio-oculo-facial syndrome, 362
Ocular injury in children from exploding microwave eggs, 718
Optic nerve massaging: an extremely rare cause of self-inflicted blindness, 715
Optical coherence tomography under general anesthesia in a child with nystagmus (letter), 390
Photodynamic therapy in young patients with choroidal neovascularization following traumatic choroidal rupture, 726
Primary embryonal carcinoma of the orbit in a 10-month-old female: a seven-year follow-up, 380
Surgical management of premacular membranes in children, 184
Unilateral keratoconus in a child with chronic and persistent eye rubbing, 356

Choroid
Photodynamic therapy in young patients with choroidal neovascularization following traumatic choroidal rupture, 726

Choroidal granuloma
Intravitreal triamcinolone acetonide for choroidal granuloma in sarcoidosis, 1116

Choroidal neovascularization
Expression of VEGF and angiopoietins in subfoveal membranes from patients with age-related macular degeneration, 589
Intraobserver repeatability of macula measurements by confocal scanning laser tomography, 624
Photodynamic therapy in young patients with choroidal neovascularization following traumatic choroidal rupture, 726
Safety profile of long-term, high-dose intraocular corticosteroid delivery, 421
Steroids for choroidal neovascularization (editorial), 533, 1095
Treatment of CNVM secondary to idiopathic juxtafoveal retinal telangiectasis by transpupillary thermotherapy (letter), 577
Verteporfin photodynamic therapy for the treatment of persistent subfoveal choroidal neovascularization after external beam radiotherapy: one-year results, 561
In vivo demonstration of the anatomic differences between classic and occult choroidal neovascularization using optical coherence tomography, 344

Chronic open-angle glaucoma
Predictive factors for progressive optic nerve damage in various types of chronic open-angle glaucoma, 999

CHST6
Different mutations in carbohydrate sulfotransferase 6 (*CHST6*) gene cause macular corneal dystrophy types I and II in a single sibship, 1118
Novel *CHST6* nonsense and missense mutations responsible for macular corneal dystrophy, 192

Ciliary body cysts
Argon laser iridoplasty in the treatment of plateau-like iris configuration as result of numerous ciliary body cysts, 381

Ciliary epithelium
Adenoma arising from nonpigmented ciliary epithelium concomitant with neovascularization of the optic disk and cystoid macular edema, 188

Clear corneal cataract incisions
Inflow of ocular surface fluid through clear corneal cataract incisions: a laboratory model (letter), 392, 576, 753

Clear corneal refractive lens surgery
Long-term histopathologic findings in human corneal wounds after refractive surgical procedures, 168

Clinical case series
Improving the reporting of clinical case series (editorial), 900

Computed tomography
Risks of computerized tomography in the evaluation of chronic uveitis (letter), 951

Conductive keratoplasty
Long-term histopathologic findings in human corneal wounds after refractive surgical procedures, 168

Cone-rod dystrophy
Histopathologic study of X-linked cone-rod dystrophy (CORDX1) caused by a mutation in the *RPGR* exon ORF15, 386

Confocal microscopy
Corneal thickness measurement by confocal microscopy, ultrasound, and scanning slit methods (letter), 391

Confocal scanning laser tomography
Intraobserver repeatability of macula measurements by confocal scanning laser tomography, 624

Congenital histiocytosis
Isolated congenital histiocytosis in the palpebral conjunctiva in a newborn, 728

Conjunctiva
Antibiotic susceptibility of preoperative normal conjunctival bacteria, 730
Isolated congenital histiocytosis in the palpebral conjunctiva in a newborn, 728
Mitomycin for pigmented conjunctival lesions (editorial), 331

Conjunctival lymphoid hyperplasia
Conjunctival lymphoid hyperplasia presenting with bilateral panuveitis, 566

Conjunctival squamous cell carcinoma
Treatment of conjunctival squamous cell carcinoma with photodynamic therapy (letter), 759

Conjunctival transplantation
Autologous cultivated conjunctival transplantation for pterygium surgery, 611

Contact lens
Ocular surface changes after the use of applanation contact lens in diabetic patients (letter), 757
Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Continuous positive airway pressure
Nonarteritic anterior ischemic optic neuropathy in patients with sleep apnea while being treated with continuous positive airway pressure, 518

Cornea
Corneal barrier function, tear film stability, and corneal sensation after photorefractive keratectomy and laser in situ keratomileusis, 64

Corneal dystrophy
Electrolysis of corneal opacities in a young patient with superficial variant of granular corneal dystrophy (Reis-Bücklers corneal dystrophy), 1139

Corneal endothelium
Corneal endothelium and postoperative outcomes 15 years after penetrating keratoplasty, 311

Corneal flap
Effect of corneal flap on optical aberrations (letter), 756

Corneal grafts
Repeat keratoplasty for correction of high or irregular postkeratoplasty astigmatism in clear corneal grafts, 826

Corneal hydrops
Acute corneal hydrops treated by intracameral injection of perfluoropropane (C_3F_8) gas, 368

Corneal incisions
Choosing the location of corneal incision based on preexisting astigmatism in phacoemulsification, 767

Corneal opacities
Electrolysis of corneal opacities in a young patient with superficial variant of granular corneal dystrophy (Reis-Bücklers corneal dystrophy), 1139

Corneal pseudomembranes
Corneal pseudomembrane from acute inflammatory response and fibrin formation to acute myeloid leukemic infiltrate, 921

Corneal sensation
Corneal barrier function, tear film stability, and corneal sensation after photorefractive keratectomy and laser in situ keratomileusis, 64

Effect of hinge position and depth plate on the rate of recovery of corneal sensation following LASIK, 118

Corneal sensitivity
Corneal sensitivity changes following the instillation of latanoprost, bimatoprost, and travoprost eyedrops, 742

Corneal swelling
Postoperative corneal swelling correlates strongly to corneal endothelial cell loss after phacoemulsification cataract surgery, 1035

Corneal tattooing
Corneal tattooing for the treatment of debilitating glare in a child with traumatic iris loss, 920

Corneal thickness
Central corneal thickness and measured IOP response to topical ocular hypotensive medication in the Ocular Hypertension Treatment Study (letter), 1148

Corneal thickness and axial length, 553

Corneal thickness measurement by confocal microscopy, ultrasound, and scanning slit methods (letter), 391

Corneal transplantation
Eye-banking risk factors for fungal endophthalmitis compared with bacterial endophthalmitis after corneal transplantation, 685

Corneal wounds
Long-term histopathologic findings in human corneal wounds after refractive surgical procedures, 168

Corticosteroids
Safety profile of long-term, high-dose intraocular corticosteroid delivery, 421

Steroids for choroidal neovascularization (editorial), 533, 1095

COX-2 inhibitors
Celecoxib, a selective inhibitor of cyclooxygenase 2 for therapy of diffuse anterior scleritis, 1086

Cryoprobe
"Finger-tip" cryoprobe assisted enucleation, 559

Cryotherapy
"Finger-tip" cryoprobe assisted enucleation, 559

***CYP4V2* gene**
Screening for mutations in *CYP4V2* gene in Japanese patients with Bietti's crystalline corneoretinal dystrophy, 894

Cystoid macular edema
Adenoma arising from nonpigmented ciliary epithelium concomitant with neovascularization of the optic disk and cystoid macular edema, 188

Case of POEMS syndrome with cystoid macular edema, 563

Cystoid macular edema from niacin typically is not accompanied by fluorescein leakage on angiography (letter), 951

Intravitreal triamcinolone acetonide for cystoid macular edema in nonischemic central retinal vein occlusion, 860

Cytomegalovirus retinitis
Incidence of cytomegalovirus (CMV) retinitis in second eyes of patients with the acquired immune deficiency syndrome and unilateral CMV retinitis, 1028

Objective analysis of retinal damage in HIV-positive patients in the HAART era using OCT, 295

D

Dacryocystorhinostomy
Outcome of external dacryocystorhinostomy combined with membranectomy of a distal canalicular obstruction, 1051

Dacryomeniscometry
Videoreflective dacryomeniscometry in normal adults and in patients with functional or primary acquired nasolacrimal duct obstruction, 493

Descemet's membrane
Technique to harvest Descemet's membrane with viable endothelial cells for selective transplantation, 325

Diabetes mellitus
Central visual function and the NEI-VFQ-25 Near and Distance Activities subscale scores in people with type 1 and 2 diabetes, 1042

Dry eye in diabetic patients, 498

Ocular surface changes after the use of applanation contact lens in diabetic patients (letter), 757

Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Diabetes retinopathy
Central visual function and the NEI-VFQ-25 Near and Distance Activities subscale scores in people with type 1 and 2 diabetes, 1042

Diabetic macular edema
Epiretinal pathology of diffuse diabetic macular edema associated with vitreomacular traction, 638

Intrasurgical plasmin enzyme in diabetic macular edema (letter), 949

Modified grid laser photocoagulation versus pars plana vitrectomy with internal limiting membrane removal in diabetic macular edema, 795

Optical coherence tomography assessment of the vitreoretinal relationship in diabetic macular edema, 807

Pars plana vitrectomy with removal of the internal limiting membrane in the treatment of persistent diabetic macular edema, 447

Persistent diabetic macular edema is associated with elevated hemoglobin A1c, 620

Posterior subtenon triamcinolone acetonide for refractory diabetic macular edema, 290

Relation between reduction of foveal thickness and visual acuity in diabetic macular edema treated with intravitreal triamcinolone, 802

Diabetic retinopathy

Clinical examination accurately locates capillary nonperfusion in diabetic retinopathy, 555

Telemedicine program for diabetic retinopathy in a Veterans Affairs Medical Center—the Joslin Vision Network Eye Health Care model, 597

Vitreous levels of angiopoietin 2 and vascular endothelial growth factor in patients with proliferative diabetic retinopathy, 476

Digital color fundus photographs

Prospective evaluation of digital non-stereo color fundus photography as a screening tool in age-related macular degeneration, 455

Distance stereoacuity

Testing distance stereoacuity with the Frisby-Davis 2 (FD2) test, 193

Drinking

Contralateral botulinum injections improve drinking ability and facial symmetry in patients with facial paralysis, 540

Dry eye disease

Combined esterified estrogen and methyltestosterone treatment for dry eye syndrome in postmenopausal women, 1109

Dry eye in diabetic patients, 498

Effect of autologous serum eyedrops in the treatment of severe dry eye disease: a prospective randomized case-control study, 242

E

Edema

Uveitis-associated flap edema and lamellar interface fluid collection after LASIK, 1137

EDTA chelation

EDTA chelation for calcific band keratopathy (letter), 216

Elderly

Serous retinal detachment in an elderly patient with Philadelphia-chromosome-positive acute lymphoblastic leukemia, 348

Electrolysis

Electrolysis of corneal opacities in a young patient with superficial variant of granular corneal dystrophy (Reis-Bücklers corneal dystrophy), 1139

Electrophysiology

Electrophysiological changes in lipaemia retinalis, 1142

Electroretinograms

Clinical and electrophysiologic characterization of paraneoplastic and autoimmune retinopathies associated with anti-enolase antibodies, 780

Transient visual disturbance after photodynamic therapy (letter), 748

Voluntary alteration of full-field electroretinogram, 571

Embryonal carcinoma

Primary embryonal carcinoma of the orbit in a 10-month-old female: a seven-year follow-up, 380

Endophthalmitis

Acute-onset endophthalmitis after cataract surgery (2000–2004): incidence, clinical settings, and visual acuity outcomes after treatment, 370, 983

Bilateral endogenous *Scedosporium prolificans* endophthalmitis after lung transplantation, 370

Endophthalmitis caused by *Streptococcus pneumoniae* (letter), 1147

Eye-banking risk factors for fungal endophthalmitis compared with bacterial endophthalmitis after corneal transplantation, 685

Failure of systemic antibiotic in preventing sequential endogenous endophthalmitis of a bronchiectasis patient, 549

Management of endogenous fungal endophthalmitis with voriconazole and caspofungin, 135

Nocardia endophthalmitis after cataract surgery: clinicomicrobiological study, 837

Reducing endophthalmitis risk factors: where we stand (editorial), 1097

Retrospective study of endophthalmitis rates comparing quinolone antibiotics, 141

Staphylococcus hominis endophthalmitis associated with a capsular hypopyon, 930

Endothelial cell transplantation

Technique to harvest Descemet's membrane with viable endothelial cells for selective transplantation, 325

Endothelial cells

Postoperative corneal swelling correlates strongly to corneal endothelial cell loss after phacoemulsification cataract surgery, 1035

Endothelium

Corneal endothelium and postoperative outcomes 15 years after penetrating keratoplasty, 311

Entropion

External (subciliary) vs internal (transconjunctival) involutional entropion repair, 482

Enucleation

"Finger-tip" cryoprobe assisted enucleation, 559

Epiretinal membrane

Epiretinal pathology of diffuse diabetic macular edema associated with vitreomacular traction, 638

Indocyanine green-assisted internal limiting membrane removal in epiretinal membrane surgery (letter), 389

Macular holes secondary to epiretinal membrane in a juvenile patient, 357

Epithelium

Epithelial healing and clinical outcomes in excimer laser photorefractive surgery following three epithelial removal techniques: mechanical, alcohol, and excimer laser, 56

Esterified estrogen
Combined esterified estrogen and methyltestosterone treatment for dry eye syndrome in postmenopausal women, 1109

Ethanolamine oleate sclerotherapy
Ethanolamine oleate sclerotherapy in the management of orbito-palpebral cyst associated with congenital microphthalmos, 939

Ethnicity
Race, politics, ethnicity, and science (editorial), 704

Evisceration
Evisceration via superior temporal sclerotomy, 78

Exenteration
Esthetics of orbital exenteration (editorial), 152

Orbital exenteration: one size does not fit all, 11

External beam radiotherapy
Verteporfin photodynamic therapy for the treatment of persistent subfoveal choroidal neovascularization after external beam radiotherapy: one-year results, 561

Eyedrops
Corneal sensitivity changes following the instillation of latanoprost, bimatoprost, and travoprost eyedrops, 742

Effect of autologous serum eyedrops in the treatment of severe dry eye disease: a prospective randomized case-control study, 242

Experimental study of an automated system for the delivery of eyedrops using a microinfusion pump, 547

Eyelids
Solitary superficial angiomyxoma in the eyelid, 1141

F

Facial nerve palsy
Contralateral botulinum injections improve drinking ability and facial symmetry in patients with facial paralysis, 540

Factor VIII deficiency
Delayed suprachoroidal hemorrhage and factor VIII deficiency, 195

Factor XII deficiency
FXII deficiency is neither a cause of thrombosis nor a protection from thrombosis (letter), 578

Femtosecond laser
Inverse mushroom-shaped nonmechanical penetrating keratoplasty using a femtosecond laser, 941

Fibrin
Corneal pseudomembrane from acute inflammatory response and fibrin formation to acute myeloid leukemic infiltrate, 921

Fishing
Fishing-related ocular trauma, 488

Flap edema
Uveitis-associated flap edema and lamellar interface fluid collection after LASIK, 1137

Fluorescein angiography
Clinical examination accurately locates capillary nonperfusion in diabetic retinopathy, 555

Cystoid macular edema from niacin typically is not accompanied by fluorescein leakage on angiography (letter), 951

Extensive upper-extremity venous thrombosis after fluorescein angiography, 928

Group 2A idiopathic juxtafoveolar retinal telangiectasia in monozygotic twins, 568

Foreign bodies
Bone from an orbital floor fracture causing an intraocular foreign body, 543

Occult anterior-chamber metallic fragment post-phacoemulsification masquerading as chronic recalcitrant postoperative inflammation, 541

Foveal photoreceptors
Foveal photoreceptor layer and visual acuity loss in central serous chorioretinopathy, 87

Photoreceptor layer features in eyes with closed macular holes: optical coherence tomography findings and correlation with visual outcomes, 280

Foveal thickness
Relation between reduction of foveal thickness and visual acuity in diabetic macular edema treated with intravitreal triamcinolone, 802

Frisby-Davis 2 test
Testing distance stereoacuity with the Frisby-Davis 2 (FD2) test, 193

Fuchs heterochromic cyclitis
Fuchs heterochromic cyclitis and ocular toxocariasis, 915

Fundus
Fundus abnormalities in a patient with type I Gaucher's disease with 12-year follow-up, 359

Fundus perimetry
Microperimetry—comparison between the Micro Perimeter 1 and scanning laser ophthalmoscope—fundus perimetry, 125

Fungal endophthalmitis
Eye-banking risk factors for fungal endophthalmitis compared with bacterial endophthalmitis after corneal transplantation, 685

Management of endogenous fungal endophthalmitis with voriconazole and caspofungin, 135

G

Gatifloxacin-resistant *Staphylococcus aureus* keratitis
Successful treatment of gatifloxacin-resistant *Staphylococcus aureus* keratitis with Zymar (gatifloxacin 0.3%) in a NZW rabbit model, 867

Gaucher's disease
Fundus abnormalities in a patient with type I Gaucher's disease with 12-year follow-up, 359

Gaze-evoked amaurosis
Gaze-evoked amaurosis from vitreopapillary traction, 631

Gelatinous droplike corneal dystrophy
Novel missense mutation in a Japanese patient with gelatinous droplike corneal dystrophy, 186

General anesthesia
Optical coherence tomography under general anesthesia in a child with nystagmus (letter), 390

Genetics
Challenges and surprises of studying the genetics of age-related macular degeneration (editorial), 908

Germ cell tumors
Primary embryonal carcinoma of the orbit in a 10-month-old female: a seven-year follow-up, 380

Glaucoma
Comparison of three optical coherence tomography scanning areas for detection of glaucomatous damage, 39

Correlation between office and peak nocturnal intraocular pressures in healthy subjects and glaucoma patients, 320

C677T variant in the methylenetetrahydrofolate reductase gene is a risk factor for primary open-angle glaucoma, 721

Evaluation of retinal nerve fiber layer, optic nerve head, and macular thickness measurements for glaucoma detection using optical coherence tomography, 44

Experience with the Baerveldt glaucoma implant in the management of pediatric glaucoma, 847

Glaucoma following penetrating ocular trauma: a cohort study of the United States Eye Injury Registry, 100

Impact of definition of primary open-angle glaucoma on the cross-sectional assessment of diagnostic validity of Heidelberg retinal tomography, 878

Interleukin-1ß tear concentration in glaucomatous and ocular hypertensive patients treated with preservative-free nonselective beta-blockers, 72

Macular and retinal nerve fiber layer analysis of normal and glaucomatous eyes in children using optical coherence tomography, 509

Management of intractable glaucoma following intravitreal triamcinolone acetonide (letter), 575

Predictive factors for progressive optic nerve damage in various types of chronic open-angle glaucoma, 999

Progression of the optic disk as a reference standard in glaucoma (editorial), 1099

Use of progressive glaucomatous optic disk change as the reference standard for evaluation of diagnostic tests in glaucoma, 1010

Goldmann applanation tonometry

Central corneal thickness and measured IOP response to topical ocular hypotensive medication in the Ocular Hypertension Treatment Study (letter), 1148

Granular corneal dystrophy

Electrolysis of corneal opacities in a young patient with superficial variant of granular corneal dystrophy (Reis-Bücklers corneal dystrophy), 1139

Granuloma

Intravitreal triamcinolone acetonide for choroidal granuloma in sarcoidosis, 1116

Grid laser photocoagulation

Modified grid laser photocoagulation versus pars plana vitrectomy with internal limiting membrane removal in diabetic macular edema, 795

H

Hamartoma

Optical coherence tomography in presumed congenital simple hamartoma of retinal pigment epithelium, 945

Heavy metals

Heavy metal concentrations in human eyes, 888

Heidelberg retinal tomography

Impact of definition of primary open-angle glaucoma on the cross-sectional assessment of diagnostic validity of Heidelberg retinal tomography, 878

Hemoglobin A1c

Persistent diabetic macular edema is associated with elevated hemoglobin A1c, 620

Hemorrhage

Delayed suprachoroidal hemorrhage and factor VIII deficiency, 195

Herbal supplements

Herb and vitamin supplementation use among a general ophthalmology practice population, 522

Ocular side effects from herbal medicines and nutritional supplements (letter), 950

Higher-order aberrations

Corneal higher-order aberrations induced by overnight orthokeratology, 429

Ocular higher-order aberrations in eyes with supernormal vision, 225

Hinge position

Effect of hinge position and depth plate on the rate of recovery of corneal sensation following LASIK, 118

Histiocytosis

Isolated congenital histiocytosis in the palpebral conjunctiva in a newborn, 728

HIV

Objective analysis of retinal damage in HIV-positive patients in the HAART era using OCT, 295

HLA-B27

Psoriatic uveitis: a distinct clinical entity?, 106

Homocysteine

Homocysteine and retinal vein occlusion: a population-based study, 181

Hydroxyapatite-coated sleeve

Primary placement of a hydroxyapatite-coated sleeve in Bioceramic orbital implants, 235

Primary placement of a hydroxyapatite-coated sleeve in Bioceramic orbital implants (editorial), 333

Hypopyon

Acute unilateral leukemic hypopyon in an adult with relapsing acute lymphoblastic leukemia, 719

Staphylococcus hominis endophthalmitis associated with a capsular hypopyon, 930

I

Idiopathic intracranial hypertension

Use of acetazolamide in idiopathic intracranial hypertension during pregnancy, 855

Imatinib

Anterior chamber infiltration in a patient with Ph+ acute lymphoblastic leukemia in remission with imatinib, 723

Immune recovery uveitis

Valganciclovir therapy for immune recovery uveitis complicated by macular edema (letter), 216

Implantable miniature telescope

Prospective multicenter clinical trial to evaluate the safety and effectiveness of the implantable miniature telescope (letter), 395

Incisions

More about self-sealing pars plana stitch incisions (letter), 954

Indocyanine green

Indocyanine green-assisted internal limiting membrane removal in epiretinal membrane surgery (letter), 389

Infantile nystagmus syndrome

Gaze-dependent and time-restricted visual acuity measures in patients with infantile nystagmus syndrome (INS), 716

Inferior oblique muscle

Insertional pattern of the inferior oblique muscle, 504

Inflammation
Occult anterior-chamber metallic fragment post-phacoemulsification masquerading as chronic recalcitrant postoperative inflammation, 541

Inflammatory response
Corneal pseudomembrane from acute inflammatory response and fibrin formation to acute myeloid leukemic infiltrate, 921

Infliximab
Regression of neovascular age-related macular degeneration following infliximab therapy, 537

Interleukin-1ß
Interleukin-1ß tear concentration in glaucomatous and ocular hypertensive patients treated with preservative-free nonselective beta-blockers, 72

Internal limiting membrane
Indocyanine green-assisted internal limiting membrane removal in epiretinal membrane surgery (letter), 389

Modified grid laser photocoagulation versus pars plana vitrectomy with internal limiting membrane removal in diabetic macular edema, 795

New method for comprehensive bird's-eye analysis of the surgically excised internal limiting membrane, 1121

Pars plana vitrectomy with removal of the internal limiting membrane in the treatment of persistent diabetic macular edema, 447

Retinal striae after surgical and spontaneous ILM-peeling (letter), 396

Ultrastructure of internal limiting membrane in myopic foveoschisis, 197

Intraocular lens
Clinical management of silicone intraocular lens condensation, 740

Factors that influence the development of posterior capsule opacification with a polyacrylic intraocular lens, 691

In-the-bag intraocular lens dislocation (letter), 952

Long-term efficacy of adding a sharp posterior optic edge to a three-piece silicone intraocular lens on capsule opacification: five-year results of a randomized study, 696

Multiple elements in the deposits of opacified hydroview intraocular lens, 1123

Pigmented-membrane formation on acrylic intraocular lens after phacoemulsification, 912

Preliminary efficacy and safety of zero diopter lens implantation in highly myopic eyes, 914

Retained antibiotic ophthalmic ointment on an intraocular lens 34 months after sutureless cataract surgery, 743

Intraocular pressure
Central corneal thickness and measured IOP response to topical ocular hypotensive medication in the Ocular Hypertension Treatment Study (letter), 1148

Clinical evaluation of the accuracy of intraocular pressure measurement by Tono-Pen XL in eyes with amniotic membrane patching, 570

Correlation between office and peak nocturnal intraocular pressures in healthy subjects and glaucoma patients, 320

Intraocular pressure rise after intravitreal triamcinolone (letter), 575

Selective laser trabeculoplasty (SLT) complicated by intraocular pressure elevation in eyes with heavily pigmented trabecular meshworks, 1110

Single intraocular pressure measurements and diurnal intraocular pressure profiles, 1136

Iridoplasty
Argon laser iridoplasty in the treatment of plateau-like iris configuration as result of numerous ciliary body cysts, 381

Iris
Argon laser iridoplasty in the treatment of plateau-like iris configuration as result of numerous ciliary body cysts, 381

Iris loss
Corneal tattooing for the treatment of debilitating glare in a child with traumatic iris loss, 920

Iris melanocytoma
Iris melanocytoma: clinical features and natural course in 47 cases, 468

J

Jackson, Edward
Significance of the Edward Jackson lecture (editorial), 530

Joslin Vision Network
Telemedicine program for diabetic retinopathy in a Veterans Affairs Medical Center—the Joslin Vision Network Eye Health Care model, 597

Journals
Maintaining public trust in medical journals (editorial), 707

Juxtafoveolar retinal telangiectasia
Group 2A idiopathic juxtafoveolar retinal telangiectasia in monozygotic twins, 568

Treatment of CNVM secondary to idiopathic juxtafoveal retinal telangiectasis by transpupillary thermotherapy (letter), 577

K

Keratitis
Calotropis procera (Ushaar) keratitis, 199

Chronic recurrent varicella-zoster virus keratitis confirmed by polymerase chain reaction testing, 1135

Successful treatment of gatifloxacin-resistant *Staphylococcus aureus* keratitis with Zymar (gatifloxacin 0.3%) in a NZW rabbit model, 867

Keratoconjunctivitis
Blinding keratoconjunctivitis and child abuse, 190

Keratoconjunctivitis sicca
Dry eye in diabetic patients, 498

Keratoconus
Unilateral keratoconus in a child with chronic and persistent eye rubbing, 356

Keratolimbal allografts
Device to facilitate limbal stem cell procurement from eye bank donor tissue for keratolimbal allograft procedures, 212

Keratoplasty
Repeat keratoplasty for correction of high or irregular postkeratoplasty astigmatism in clear corneal grafts, 826

L

Laser
Inverse mushroom-shaped nonmechanical penetrating keratoplasty using a femtosecond laser, 941

Multiple laser treatments for macular edema attributable to branch retinal vein occlusion, 653

Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Laser in situ keratomileusis

Comparison of two techniques of marking the horizontal axis during excimer laser keratorefractive surgery for myopia astigmatism, 735

Corneal barrier function, tear film stability, and corneal sensation after photorefractive keratectomy and laser in situ keratomileusis, 64

Effect of hinge position and depth plate on the rate of recovery of corneal sensation following LASIK, 118

Is there a role for neurotrophin treatment of the ocular surface following laser in situ keratomileusis (LASIK) (editorial), 1090

Laser in situ keratomileusis for primary and secondary mixed astigmatism, 1019

Laser in situ keratomileusis in a patient with presumed central cloudy corneal dystrophy of Francois, 376

Long-term histopathologic findings in human corneal wounds after refractive surgical procedures, 168

Nerve growth factor concentration and implications in photorefractive keratectomy vs laser in situ keratomileusis, 965

Uveitis-associated flap edema and lamellar interface fluid collection after LASIK, 1137

Laser photocoagulation

Modified grid laser photocoagulation versus pars plana vitrectomy with internal limiting membrane removal in diabetic macular edema, 795

Laser-assisted subepithelial keratomileusis

Epithelial healing and clinical outcomes in excimer laser photorefractive surgery following three epithelial removal techniques: mechanical, alcohol, and excimer laser, 56

Lash ptosis

Lash ptosis caused by latanoprost, 932

Latanoprost

Corneal sensitivity changes following the instillation of latanoprost, bimatoprost, and travoprost eyedrops, 742

Lash ptosis caused by latanoprost, 932

Lateral tarsal strip procedure

Use of a polyglactin suture in the lateral tarsal strip procedure (letter), 758

Latinos

Sociodemographic factors and age-related macular degeneration in Latinos: The Los Angeles Latino Eye Study, 30

Lead

Heavy metal concentrations in human eyes, 888

Lenses

Alpha-tocopherol in plasma, red blood cells and lenses with and without cataract, 266

Vitrectomy surgery increases oxygen exposure to the lens: a possible mechanism for nuclear cataract formation, 302

Leukemia

Corneal pseudomembrane from acute inflammatory response and fibrin formation to acute myeloid leukemic infiltrate, 921

Serous retinal detachment in an elderly patient with Philadelphia-chromosome-positive acute lymphoblastic leukemia, 348

Limbal stem cells

Device to facilitate limbal stem cell procurement from eye bank donor tissue for keratolimbal allograft procedures, 212

Linezolid

Linezolid-induced optic neuropathy, 1114

Lipaemia retinalis

Electrophysiological changes in lipaemia retinalis, 1142

L186P

Novel missense mutation in a Japanese patient with gelatinous droplike corneal dystrophy, 186

Lung cancer

Anti-α-enolase antibodies in cancer-associated retinopathy with small cell carcinoma of the lung, 746

Lung transplantation

Bilateral endogenous *Scedosporium prolificans* endophthalmitis after lung transplantation, 370

Lymphoma

Isolated optic nerve lymphoma diagnosed by optic nerve biopsy, 1128

Systemic non-Hodgkin's lymphoma simulating primary intraocular lymphoma, 573

M

Macula

Evaluation of retinal nerve fiber layer, optic nerve head, and macular thickness measurements for glaucoma detection using optical coherence tomography, 44

Intraobserver repeatability of macula measurements by confocal scanning laser tomography, 624

Macular abnormalities and optic disk anomaly associated with a new *PAX2* missense mutation, 203

Macular and retinal nerve fiber layer analysis of normal and glaucomatous eyes in children using optical coherence tomography, 509

Macular corneal dystrophy

Different mutations in carbohydrate sulfotransferase 6 (*CHST6*) gene cause macular corneal dystrophy types I and II in a single sibship, 1118

Novel *CHST6* nonsense and missense mutations responsible for macular corneal dystrophy, 192

Macular edema

Case of POEMS syndrome with cystoid macular edema, 563

Cystoid macular edema from niacin typically is not accompanied by fluorescein leakage on angiography (letter), 951

Effect of arteriovenous sheathotomy on retinal blood flow and macular edema in patients with branch retinal vein occlusion, 739

Epiretinal pathology of diffuse diabetic macular edema associated with vitreomacular traction, 638

Intrasurgical plasmin enzyme in diabetic macular edema (letter), 949

Intravitreal triamcinolone acetonide for cystoid macular edema in nonischemic central retinal vein occlusion, 860

Intravitreal versus retrobulbar injections of triamcinolone for macular edema associated with branch retinal vein occlusion, 972

Modified grid laser photocoagulation versus pars plana vitrec-

tomy with internal limiting membrane removal in diabetic macular edema, 795

Multiple laser treatments for macular edema attributable to branch retinal vein occlusion, 653

Optical coherence tomography assessment of the vitreoretinal relationship in diabetic macular edema, 807

Pars plana vitrectomy with removal of the internal limiting membrane in the treatment of persistent diabetic macular edema, 447

Persistent diabetic macular edema is associated with elevated hemoglobin A1c, 620

Posterior subtenon triamcinolone acetonide for refractory diabetic macular edema, 290

Relation between reduction of foveal thickness and visual acuity in diabetic macular edema treated with intravitreal triamcinolone, 802

Valganciclovir therapy for immune recovery uveitis complicated by macular edema (letter), 216

Vitrectomy with or without arteriovenous adventitial sheathotomy for macular edema associated with branch retinal vein occlusion (letter), 1146

Macular hole(s)

Idiopathic macular hole with extensive subretinal fluid: clinical and optical coherence tomography features before and after surgery, 383

Macular hole hypotheses (editorial), 149

Macular holes secondary to epiretinal membrane in a juvenile patient, 357

Morphologic analysis of stage 3 and stage 4 macular holes: implications for treatment, 1

Persistent outer retinal defect after successful macular hole repair, 183

Photoreceptor layer features in eyes with closed macular holes: optical coherence tomography findings and correlation with visual outcomes, 280

Stage 3 macular hole: role of optical coherence tomography and of B-scan ultrasonography, 814

Macular hole surgery

Photoreceptor layer features in eyes with closed macular holes: optical coherence tomography findings and correlation with visual outcomes, 280

Medical journals

Maintaining public trust in medical journals (editorial), 707

Melanocytoma

Iris melanocytoma: clinical features and natural course in 47 cases, 468

Total blindness from presumed optic nerve melanocytoma, 1113

Melanosis

Treatment of primary acquired melanosis (PAM) with atypia by topical mitomycin C, 229

Membranectomy

Outcome of external dacryocystorhinostomy combined with membranectomy of a distal canalicular obstruction, 1051

Methylenetetrahydrofolate reductase

C677T variant in the methylenetetrahydrofolate reductase gene is a risk factor for primary open-angle glaucoma, 721

Methyltestosterone

Combined esterified estrogen and methyltestosterone treatment for dry eye syndrome in postmenopausal women, 1109

Micro Perimeter 1

Microperimetry—comparison between the Micro Perimeter 1 and scanning laser ophthalmoscope—fundus perimetry, 125

Microinfusion pump

Experimental study of an automated system for the delivery of eyedrops using a microinfusion pump, 547

Microperimetry

Microperimetry—comparison between the Micro Perimeter 1 and scanning laser ophthalmoscope—fundus perimetry, 125

Microphthalmos

Ethanolamine oleate sclerotherapy in the management of orbito-palpebral cyst associated with congenital microphthalmos, 939

Miragel's scleral buckle

Removal of the intruding Miragel's scleral buckle by pars plana ultrasonic fragmentation, 209

Mitomycin C

Mitomycin for pigmented conjunctival lesions (editorial), 331

Treatment of primary acquired melanosis (PAM) with atypia by topical mitomycin C, 229

Multiple evanescent white dot syndrome

Atypical presentation of multiple evanescent white dot syndrome involving granular lesions of varying size, 935

Multiple sclerosis

Evolving management of optic neuritis and multiple sclerosis, 1101

Musculoskeletal disorders

Symptoms of musculoskeletal disorders in ophthalmologists, 179

Myocilin

Q368STOP myocilin mutation in a population-based cohort: The Blue Mountains Eye Study, 1125

Myopia

Comparison of two techniques of marking the horizontal axis during excimer laser keratorefractive surgery for myopia astigmatism, 735

Optic disk ovality as an index of tilt and its relationship to myopia and perimetry, 247

Preliminary efficacy and safety of zero diopter lens implantation in highly myopic eyes, 914

Retinal vascular microfolds in highly myopic eyes, 658

Myopic foveoschisis

Potential retinal arteriolar traction as a possible cause of myopic foveoschisis, 462

Ultrastructure of internal limiting membrane in myopic foveoschisis, 197

N

Nasolacrimal duct obstruction

Videoreflective dacryomeniscometry in normal adults and in patients with functional or primary acquired nasolacrimal duct obstruction, 493

Near-infrared spectroscopy

Near-infrared spectroscopy of the visual cortex in unilateral optic neuritis, 353

NEI-VFQ-25 Near and Distance Activities subscales

Central visual function and the NEI-VFQ-25 Near and Distance Activities subscale scores in people with type 1 and 2 diabetes, 1042

Neoplasia
Ocular surface squamous neoplasia in Papillon–Lefevre syndrome, 207

Neovascularization
Adenoma arising from nonpigmented ciliary epithelium concomitant with neovascularization of the optic disk and cystoid macular edema, 188

Expression of VEGF and angiopoietins in subfoveal membranes from patients with age-related macular degeneration, 589

Intereye difference in exudative age-related macular degeneration with minimally classic or occult subfoveal neovascularization after unilateral intravitreal injection of triamcinolone acetonide, 1073

Photodynamic therapy in young patients with choroidal neovascularization following traumatic choroidal rupture, 726

Retinal neovascularization associated with retinoblastoma, 210

Safety profile of long-term, high-dose intraocular corticosteroid delivery, 421

Steroids for choroidal neovascularization (editorial), 533, 1095

Verteporfin photodynamic therapy for the treatment of persistent subfoveal choroidal neovascularization after external beam radiotherapy: one-year results, 561

In vivo demonstration of the anatomic differences between classic and occult choroidal neovascularization using optical coherence tomography, 344

Nerve growth factor
Nerve growth factor concentration and implications in photorefractive keratectomy vs laser in situ keratomileusis, 965

Neurotrophin
Is there a role for neurotrophin treatment of the ocular surface following laser in situ keratomileusis (LASIK) (editorial), 1090

Newborn
Isolated congenital histiocytosis in the palpebral conjunctiva in a newborn, 728

Niacin
Cystoid macular edema from niacin typically is not accompanied by fluorescein leakage on angiography (letter), 951

***Nocardia* endophthalmitis**
Nocardia endophthalmitis after cataract surgery: clinicomicrobiological study, 837

Nonarteritic anterior ischemic optic neuropathy
Nonarteritic anterior ischemic optic neuropathy in patients with sleep apnea while being treated with continuous positive airway pressure, 518

Non-Hodgkin's lymphoma
Systemic non-Hodgkin's lymphoma simulating primary intraocular lymphoma, 573

Noninsulin-dependent diabetes mellitus
Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Nonmydriatic fundus camera
Detecting cataract causing visual impairment using a nonmydriatic fundus camera, 725

Nonpigmented ciliary epithelium
Adenoma arising from nonpigmented ciliary epithelium concomitant with neovascularization of the optic disk and cystoid macular edema, 188

Nutritional supplements
Ocular side effects from herbal medicines and nutritional supplements (letter), 950

Nystagmus
Gaze-dependent and time-restricted visual acuity measures in patients with infantile nystagmus syndrome (INS), 716

Optical coherence tomography under general anesthesia in a child with nystagmus (letter), 390

O

Ocular hypertension
Central corneal thickness and measured IOP response to topical ocular hypotensive medication in the Ocular Hypertension Treatment Study (letter), 1148

Interleukin-1ß tear concentration in glaucomatous and ocular hypertensive patients treated with preservative-free nonselective beta-blockers, 72

Ocular surface
Is there a role for neurotrophin treatment of the ocular surface following laser in situ keratomileusis (LASIK) (editorial), 1090

Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Ocular surface fluid
Inflow of ocular surface fluid through clear corneal cataract incisions: a laboratory model (letter), 392, 576, 753

Ocular surface squamous neoplasia
Ocular surface squamous neoplasia in Papillon–Lefevre syndrome, 207

Ocular toxocariasis
Fuchs heterochromic cyclitis and ocular toxocariasis, 915

Ocular trauma
Fishing-related ocular trauma, 488

Glaucoma following penetrating ocular trauma: a cohort study of the United States Eye Injury Registry, 100

OL_{62HV}
Induction of apoptosis in rat retinal cell cultures by partially fluorinated alkanes, 737

Opacification
Multiple elements in the deposits of opacified hydroview intraocular lens, 1123

Open Access
Open Access initiative in scientific and biomedical publishing: fourth in the series on editorship, 156

Open-globe injuries
Terror-related open-globe injuries: a 10-year review, 937

Ophthalmologists
Herb and vitamin supplementation use among a general ophthalmology practice population, 522

Significance of the Edward Jackson lecture (editorial), 530

Symptoms of musculoskeletal disorders in ophthalmologists, 179

Ophthalmology
Attrition from ophthalmology residency programs (letter), 948

Oprelvekin
Associated-associated bilateral optic disk edema, 367

Optic chiasmal syndrome
Clinical features associated with lesions other than pituitary adenoma in patients with an optic chiasmal syndrome: a new perspective (letter), 394

Optic disk
Adenoma arising from nonpigmented ciliary epithelium concomitant with neovascularization of the optic disk and cystoid macular edema, 188
Optic disk ovality as an index of tilt and its relationship to myopia and perimetry, 247
Optic disk size correlated with refractive error, 346
Progression of the optic disk as a reference standard in glaucoma (editorial), 1099
Use of progressive glaucomatous optic disk change as the reference standard for evaluation of diagnostic tests in glaucoma, 1010

Optic disk anomaly
Macular abnormalities and optic disk anomaly associated with a new *PAX2* missense mutation, 203

Optic disk edema
Associated-associated bilateral optic disk edema, 367

Optic disk tilt
Optic disk ovality as an index of tilt and its relationship to myopia and perimetry, 247

Optic nerve
Predictive factors for progressive optic nerve damage in various types of chronic open-angle glaucoma, 999

Optic nerve biopsy
Isolated optic nerve lymphoma diagnosed by optic nerve biopsy, 1128

Optic nerve drusen
Measurement of the scleral canal using optical coherence tomography in patients with optic nerve drusen, 664
Rate of visual field loss in optic nerve head drusen, 1062

Optic nerve head
Comparison of three optical coherence tomography scanning areas for detection of glaucomatous damage, 39
Evaluation of retinal nerve fiber layer, optic nerve head, and macular thickness measurements for glaucoma detection using optical coherence tomography, 44

Optic nerve lymphoma
Isolated optic nerve lymphoma diagnosed by optic nerve biopsy, 1128

Optic nerve massaging
Optic nerve massaging: an extremely rare cause of self-inflicted blindness, 715

Optic nerve melanocytoma
Total blindness from presumed optic nerve melanocytoma, 1113

Optic neuritis
Evolving management of optic neuritis and multiple sclerosis, 1101
Near-infrared spectroscopy of the visual cortex in unilateral optic neuritis, 353

Optic neuropathy
Linezolid-induced optic neuropathy, 1114
Nonarteritic anterior ischemic optic neuropathy in patients with sleep apnea while being treated with continuous positive airway pressure, 518

Optic neurotomy
Central retinal artery occlusion after radial optic neurotomy in a patient with central retinal vein occlusion, 206

Optical aberrations
Effect of corneal flap on optical aberrations (letter), 756

Optical coherence tomography
Artifacts in optical coherence tomography topographic maps (editorial), 154
Comparison of three optical coherence tomography scanning areas for detection of glaucomatous damage, 39
Evaluation of image artifact produced by optical coherence tomography of retinal pathology, 18
Evaluation of retinal nerve fiber layer, optic nerve head, and macular thickness measurements for glaucoma detection using optical coherence tomography, 44
Foveal photoreceptor layer and visual acuity loss in central serous chorioretinopathy, 87
High-resolution ultrasonography in central serous chorioretinopathy, 550
Idiopathic macular hole with extensive subretinal fluid: clinical and optical coherence tomography features before and after surgery, 383
Macular and retinal nerve fiber layer analysis of normal and glaucomatous eyes in children using optical coherence tomography, 509
Measurement of the scleral canal using optical coherence tomography in patients with optic nerve drusen, 664
Objective analysis of retinal damage in HIV-positive patients in the HAART era using OCT, 295
Optical coherence tomography assessment of the vitreoretinal relationship in diabetic macular edema, 807
Optical coherence tomography in Best's disease: an observational case report, 351
Optical coherence tomography in presumed congenital simple hamartoma of retinal pigment epithelium, 945
Optical coherence tomography under general anesthesia in a child with nystagmus (letter), 390
Persistent outer retinal defect after successful macular hole repair, 183
Photoreceptor layer features in eyes with closed macular holes: optical coherence tomography findings and correlation with visual outcomes, 280
Quantitative thickness measurement of retinal layers imaged by optical coherence tomography, 1056
Stage 3 macular hole: role of optical coherence tomography and of B-scan ultrasonography, 814
Tomographic features and surgical outcomes of vitreomacular traction syndrome, 112
In vivo demonstration of the anatomic differences between classic and occult choroidal neovascularization using optical coherence tomography, 344

Orbit
Primary embryonal carcinoma of the orbit in a 10-month-old female: a seven-year follow-up, 380

Orbital cavernomas
Treatment and long-term outcome of patients with orbital cavernomas (letter), 749, 750, 751, 752

Orbital exenteration
Esthetics of orbital exenteration (editorial), 152
Orbital exenteration: one size does not fit all, 11

Orbital floor fracture
Bone from an orbital floor fracture causing an intraocular foreign body, 543

Orbital implants
Primary placement of a hydroxyapatite-coated sleeve in Bioceramic orbital implants, 235
Primary placement of a hydroxyapatite-coated sleeve in Bioceramic orbital implants (editorial), 333

Orbito-palpebral cyst
Ethanolamine oleate sclerotherapy in the management of orbito-palpebral cyst associated with congenital microphthalmos, 939

Orthokeratology
Corneal higher-order aberrations induced by overnight orthokeratology, 429

Osteomyelitis
Sixth and tenth nerve palsy secondary to Pseudomonas infection of the skull base, 918

Outcomes
Acute-onset endophthalmitis after cataract surgery (2000–2004): incidence, clinical settings, and visual acuity outcomes after treatment, 370, 983
Clinical characteristics and surgical outcomes of pediatric rhegmatogenous retinal detachment in Taiwan, 1067
Corneal endothelium and postoperative outcomes 15 years after penetrating keratoplasty, 311
Longer-term outcomes of transconjunctival sutureless 25-gauge vitrectomy, 831
Outcome of external dacryocystorhinostomy combined with membranectomy of a distal canalicular obstruction, 1051
Photoreceptor layer features in eyes with closed macular holes: optical coherence tomography findings and correlation with visual outcomes, 280
Tomographic features and surgical outcomes of vitreomacular traction syndrome, 112
Treatment and long-term outcome of patients with orbital cavernomas (letter), 749, 750, 751, 752

P

Palpebral conjunctiva
Isolated congenital histiocytosis in the palpebral conjunctiva in a newborn, 728

Palsy
Contralateral botulinum injections improve drinking ability and facial symmetry in patients with facial paralysis, 540
Sixth and tenth nerve palsy secondary to Pseudomonas infection of the skull base, 918

Panuveitis
Conjunctival lymphoid hyperplasia presenting with bilateral panuveitis, 566

Papillon–Lefevre syndrome
Ocular surface squamous neoplasia in Papillon–Lefevre syndrome, 207

Papillorenal syndrome
De novo insG619 mutation in PAX2 gene in a Japanese patient with papillorenal syndrome, 733

Paraneoplastic retinopathy
Clinical and electrophysiologic characterization of paraneoplastic and autoimmune retinopathies associated with anti-enolase antibodies, 780

Pars plana sclerotomy
More about self-sealing pars plana stitch incisions (letter), 954

Pars plana vitrectomy
Modified grid laser photocoagulation versus pars plana vitrectomy with internal limiting membrane removal in diabetic macular edema, 795
New non-trocar system for 25-gauge transconjunctival pars plana vitrectomy, 1130
Pars plana vitrectomy with removal of the internal limiting membrane in the treatment of persistent diabetic macular edema, 447

Partially fluorinated alkanes
Induction of apoptosis in rat retinal cell cultures by partially fluorinated alkanes, 737

PAX2
De novo insG619 mutation in PAX2 gene in a Japanese patient with papillorenal syndrome, 733
Macular abnormalities and optic disk anomaly associated with a new *PAX2* missense mutation, 203

Peak nocturnal intraocular pressure
Correlation between office and peak nocturnal intraocular pressures in healthy subjects and glaucoma patients, 320

Penetrating keratoplasty
Corneal endothelium and postoperative outcomes 15 years after penetrating keratoplasty, 311
Inverse mushroom-shaped nonmechanical penetrating keratoplasty using a femtosecond laser, 941
Repeat keratoplasty for correction of high or irregular postkeratoplasty astigmatism in clear corneal grafts, 826

Penetrating trauma
Taser penetrating ocular injury, 713

Perfluorobutylbutane
Induction of apoptosis in rat retinal cell cultures by partially fluorinated alkanes, 737

Perfluorocarbon liquids
Removal of retained subfoveal perfluorocarbon liquids (letter), 580

Perfluorohexylethane
Induction of apoptosis in rat retinal cell cultures by partially fluorinated alkanes, 737

Perfluoropropane gas
Acute corneal hydrops treated by intracameral injection of perfluoropropane (C_3F_8) gas, 368

Perimetry
Optic disk ovality as an index of tilt and its relationship to myopia and perimetry, 247

Peripapillary nerve fiber layer
Comparison of three optical coherence tomography scanning areas for detection of glaucomatous damage, 39

Phacoemulsification
Choosing the location of corneal incision based on preexisting astigmatism in phacoemulsification, 767
Occult anterior-chamber metallic fragment post-phacoemulsification masquerading as chronic recalcitrant postoperative inflammation, 541
Pigmented-membrane formation on acrylic intraocular lens after phacoemulsification, 912
Postoperative corneal swelling correlates strongly to corneal endothelial cell loss after phacoemulsification cataract surgery, 1035

Phacotrabeculectomy
Use of Surodex in phacotrabeculectomy surgery, 927

Philadelphia-chromosome-positive acute lymphoblastic leukemia
Anterior chamber infiltration in a patient with Ph+ acute lymphoblastic leukemia in remission with imatinib, 723
Serous retinal detachment in an elderly patient with Philadelphia-chromosome-positive acute lymphoblastic leukemia, 348

Photocoagulation
Modified grid laser photocoagulation versus pars plana vitrectomy with internal limiting membrane removal in diabetic macular edema, 795
Ocular surface changes with applanation contact lens and coupling fluid use after argon laser photocoagulation in noninsulin-dependent diabetes mellitus (letter), 755

Photodynamic therapy
Current and future role of photodynamic therapy in chronic central serous chorioretinopathy (letter), 393
Functional changes after photodynamic therapy with verteporfin, 214
Photodynamic therapy in young patients with choroidal neovascularization following traumatic choroidal rupture, 726
Transient visual disturbance after photodynamic therapy (letter), 748
Treatment of conjunctival squamous cell carcinoma with photodynamic therapy (letter), 759
Verteporfin photodynamic therapy for the treatment of persistent subfoveal choroidal neovascularization after external beam radiotherapy: one-year results, 561

Photoreceptors
Photoreceptor apoptosis in human retinal detachment, 605

Photorefractive keratectomy
Comparison of two techniques of marking the horizontal axis during excimer laser keratorefractive surgery for myopia astigmatism, 735
Corneal barrier function, tear film stability, and corneal sensation after photorefractive keratectomy and laser in situ keratomileusis, 64
Epithelial healing and clinical outcomes in excimer laser photorefractive surgery following three epithelial removal techniques: mechanical, alcohol, and excimer laser, 56
Long-term histopathologic findings in human corneal wounds after refractive surgical procedures, 168
Nerve growth factor concentration and implications in photorefractive keratectomy vs laser in situ keratomileusis, 965

Phthisis bulbi
Phthisis bulbi caused by late congenital syphilis untreated until adulthood, 545

Pigmented membranes
Pigmented-membrane formation on acrylic intraocular lens after phacoemulsification, 912

Pinguecula
Pterygium, pinguecula and the 5-year incidence of cataract, 1126
Pterygium/pinguecula and the five-year incidence of age-related maculopathy, 536

Pituitary adenoma
Clinical features associated with lesions other than pituitary adenoma in patients with an optic chiasmal syndrome: a new perspective (letter), 394

Plasma
Alpha-tocopherol in plasma, red blood cells and lenses with and without cataract, 266

Plasmin
Intrasurgical plasmin enzyme in diabetic macular edema (letter), 949

POEMS syndrome
Case of POEMS syndrome with cystoid macular edema, 563

Polyacrylic intraocular lens
Factors that influence the development of posterior capsule opacification with a polyacrylic intraocular lens, 691

Polyglactin suture
Use of a polyglactin suture in the lateral tarsal strip procedure (letter), 758

Polymerase chain reaction
Chronic recurrent varicella-zoster virus keratitis confirmed by polymerase chain reaction testing, 1135

Posterior capsule opacification
Factors that influence the development of posterior capsule opacification with a polyacrylic intraocular lens, 691
Long-term efficacy of adding a sharp posterior optic edge to a three-piece silicone intraocular lens on capsule opacification: five-year results of a randomized study, 696

Posterior vitreous detachment
Optical coherence tomography assessment of the vitreoretinal relationship in diabetic macular edema, 807

Postmenopausal women
Combined esterified estrogen and methyltestosterone treatment for dry eye syndrome in postmenopausal women, 1109

Pregnancy
Use of acetazolamide in idiopathic intracranial hypertension during pregnancy, 855

Premacular membranes
Surgical management of premacular membranes in children, 184

Primary acquired melanosis
Mitomycin for pigmented conjunctival lesions (editorial), 331
Treatment of primary acquired melanosis (PAM) with atypia by topical mitomycin C, 229

Primary embryonal carcinoma
Primary embryonal carcinoma of the orbit in a 10-month-old female: a seven-year follow-up, 380

Primary open-angle glaucoma
C677T variant in the methylenetetrahydrofolate reductase gene is a risk factor for primary open-angle glaucoma, 721
Impact of definition of primary open-angle glaucoma on the cross-sectional assessment of diagnostic validity of Heidelberg retinal tomography, 878

Proliferative diabetic retinopathy
Vitreous levels of angiopoietin 2 and vascular endothelial growth factor in patients with proliferative diabetic retinopathy, 476

Protein C deficiency
Normal retinal vasculature despite familial protein C deficiency, 944

Pseudomonas aeruginosa
Failure of systemic antibiotic in preventing sequential endogenous endophthalmitis of a bronchiectasis patient, 549

***Pseudomonas* infection**
Sixth and tenth nerve palsy secondary to Pseudomonas infection of the skull base, 918

Psoriatic uveitis
Psoriatic uveitis: a distinct clinical entity?, 106

Pterygium
Autologous cultivated conjunctival transplantation for pterygium surgery, 611

Pterygium, pinguecula and the 5-year incidence of cataract, 1126

Pterygium/pinguecula and the five-year incidence of age-related maculopathy, 536

Ptosis
Lash ptosis caused by latanoprost, 932

Publishing
Maintaining public trust in medical journals (editorial), 707

Punctal plugs
Pyogenic granulomas after silicone punctal plugs: a clinical and histopathologic study, 678

Pyogenic granulomas
Pyogenic granulomas after silicone punctal plugs: a clinical and histopathologic study, 678

Q

Q368STOP myocilin mutation
Q368STOP myocilin mutation in a population-based cohort: The Blue Mountains Eye Study, 1125

Quality of life
Vision-related quality of life in patients suffering from age-related macular degeneration, 271

Quinolones
Retrospective study of endophthalmitis rates comparing quinolone antibiotics, 141

R

Race
Race, politics, ethnicity, and science (editorial), 704

Sociodemographic factors and age-related macular degeneration in Latinos: The Los Angeles Latino Eye Study, 30

Radial optic neurotomy
Central retinal artery occlusion after radial optic neurotomy in a patient with central retinal vein occlusion, 206

Central retinal vein occlusion with further reduction of retinal blood flow one year after radial optic neurotomy, 926

Red blood cells
Alpha-tocopherol in plasma, red blood cells and lenses with and without cataract, 266

Refraction
Importance of the refractive aspects of cataract surgery (editorial), 906

Refractive error
Optic disk size correlated with refractive error, 346

Reis-Bücklers corneal dystrophy
Electrolysis of corneal opacities in a young patient with superficial variant of granular corneal dystrophy (Reis-Bücklers corneal dystrophy), 1139

Residency programs
Attrition from ophthalmology residency programs (letter), 948

Retina
Evaluation of image artifact produced by optical coherence tomography of retinal pathology, 18

Objective analysis of retinal damage in HIV-positive patients in the HAART era using OCT, 295

Persistent outer retinal defect after successful macular hole repair, 183

Retinal angiomatous proliferation
New micro vertical scissors for the surgical ablation of retinal angiomatous proliferation, 377

Recurrent retinal angiomatous proliferation after surgical ablation, 917

Retinal arteriolar traction
Potential retinal arteriolar traction as a possible cause of myopic foveoschisis, 462

Retinal blood flow
Central retinal vein occlusion with further reduction of retinal blood flow one year after radial optic neurotomy, 926

Effect of arteriovenous sheathotomy on retinal blood flow and macular edema in patients with branch retinal vein occlusion, 739

Retinal cystoid spaces
Retinal cystoid spaces in acute Vogt-Koyanagi-Harada syndrome, 670

Retinal detachment
Clinical characteristics and surgical outcomes of pediatric rhegmatogenous retinal detachment in Taiwan, 1067

Clinical management of silicone intraocular lens condensation, 740

Natural history of asymptomatic clinical retinal detachments, 777

Photoreceptor apoptosis in human retinal detachment, 605

Retinal cystoid spaces in acute Vogt-Koyanagi-Harada syndrome, 670

Retinal layers
Quantitative thickness measurement of retinal layers imaged by optical coherence tomography, 1056

Retinal microfolds
Potential retinal arteriolar traction as a possible cause of myopic foveoschisis, 462

Retinal vascular microfolds in highly myopic eyes, 658

Retinal nerve fiber layer
Evaluation of retinal nerve fiber layer, optic nerve head, and macular thickness measurements for glaucoma detection using optical coherence tomography, 44

Macular and retinal nerve fiber layer analysis of normal and glaucomatous eyes in children using optical coherence tomography, 509

Objective analysis of retinal damage in HIV-positive patients in the HAART era using OCT, 295

Quantitative assessment of atypical birefringence images using scanning laser polarimetry with variable corneal compensation, 437

Retinal striae after surgical and spontaneous ILM-peeling (letter), 396

Retinal nerve fibers
Visual prognosis of amblyopia associated with myelinated retinal nerve fibers, 259

Retinal pigment epithelium
Cancer-associated nummular loss of the pigment epithelium, 933

Optical coherence tomography in presumed congenital simple hamartoma of retinal pigment epithelium, 945

Retinal striae
Retinal striae after surgical and spontaneous ILM-peeling (letter), 396

Retinal vein occlusion
Homocysteine and retinal vein occlusion: a population-based study, 181

Retinal vessels
Medication use and retinal vessel diameters, 373

Normal retinal vasculature despite familial protein C deficiency, 944

Retinitis punctata albescens
Novel mutation in *RLBP1* gene in a Japanese patient with retinitis punctata albescens, 1133

Retinoblastoma
Retinal neovascularization associated with retinoblastoma, 210

Rhegmatogenous retinal detachments
Clinical characteristics and surgical outcomes of pediatric rhegmatogenous retinal detachment in Taiwan, 1067

Natural history of asymptomatic clinical retinal detachments, 777

***RLBP1* gene**
Novel mutation in *RLBP1* gene in a Japanese patient with retinitis punctata albescens, 1133

***RPGR* exon ORF15**
Histopathologic study of X-linked cone-rod dystrophy (CORDX1) caused by a mutation in the *RPGR* exon ORF15, 386

S

Sarcoidosis
Intravitreal triamcinolone acetonide for choroidal granuloma in sarcoidosis, 1116

Scanning laser ophthalmoscope
Microperimetry—comparison between the Micro Perimeter 1 and scanning laser ophthalmoscope—fundus perimetry, 125

Scanning laser polarimetry
Quantitative assessment of atypical birefringence images using scanning laser polarimetry with variable corneal compensation, 437

Use of progressive glaucomatous optic disk change as the reference standard for evaluation of diagnostic tests in glaucoma, 1010

***Scedosporium prolificans* endophthalmitis**
Bilateral endogenous *Scedosporium prolificans* endophthalmitis after lung transplantation, 370

Scientific publishing
Open Access initiative in scientific and biomedical publishing: fourth in the series on editorship, 156

Scleral buckle
Removal of the intruding Miragel's scleral buckle by pars plana ultrasonic fragmentation, 209

Scleral canal
Measurement of the scleral canal using optical coherence tomography in patients with optic nerve drusen, 664

Scleritis
Celecoxib, a selective inhibitor of cyclooxygenase 2 for therapy of diffuse anterior scleritis, 1086

Sclerochoroidal calcification
Sclerochoroidal calcification in a patient with classic Bartter's syndrome, 365

Sclerotherapy
Ethanolamine oleate sclerotherapy in the management of orbito-palpebral cyst associated with congenital microphthalmos, 939

Sclerotomy
Evisceration via superior temporal sclerotomy, 78

Selective laser trabeculoplasty
Selective laser trabeculoplasty (SLT) complicated by intraocular pressure elevation in eyes with heavily pigmented trabecular meshworks, 1110

Self-sealing stitch incisions
More about self-sealing pars plana stitch incisions (letter), 954

Serous retinal detachment
Serous retinal detachment in an elderly patient with Philadelphia-chromosome-positive acute lymphoblastic leukemia, 348

Silicone intraocular lens
Clinical management of silicone intraocular lens condensation, 740

Long-term efficacy of adding a sharp posterior optic edge to a three-piece silicone intraocular lens on capsule opacification: five-year results of a randomized study, 696

Silicone punctal plugs
Pyogenic granulomas after silicone punctal plugs: a clinical and histopathologic study, 678

Sixth nerve palsy
Sixth and tenth nerve palsy secondary to pseudomonas infection of the skull base, 918

Skull base osteomyelitis
Sixth and tenth nerve palsy secondary to pseudomonas infection of the skull base, 918

Sleep apnea
Nonarteritic anterior ischemic optic neuropathy in patients with sleep apnea while being treated with continuous positive airway pressure, 518

Sociodemographics
Sociodemographic factors and age-related macular degeneration in Latinos: The Los Angeles Latino Eye Study, 30

Solitary superficial angiomyxoma
Solitary superficial angiomyxoma in the eyelid, 1141

Spectroscopy
Near-infrared spectroscopy of the visual cortex in unilateral optic neuritis, 353

Spinocerebellar ataxia type 7
Anatomical and functional characteristics in atrophic maculopathy associated with spinocerebellar ataxia type 7, 923

Squamous cell carcinoma
Treatment of conjunctival squamous cell carcinoma with photodynamic therapy (letter), 759

***Staphylococcus aureus* keratitis**
Successful treatment of gatifloxacin-resistant *Staphylococcus aureus* keratitis with Zymar (gatifloxacin 0.3%) in a NZW rabbit model, 867

Staphylococcus hominis endophthalmitis
Staphylococcus hominis endophthalmitis associated with a capsular hypopyon, 930

Stereoacuity
Testing distance stereoacuity with the Frisby-Davis 2 (FD2) test, 193

Stitches
More about self-sealing pars plana stitch incisions (letter), 954

Streptococcus pneumoniae
Endophthalmitis caused by _Streptococcus pneumoniae_ (letter), 1147

Subfoveal membranes
Expression of VEGF and angiopoietins in subfoveal membranes from patients with age-related macular degeneration, 589

Subfoveal neovascularization
Intereye difference in exudative age-related macular degeneration with minimally classic or occult subfoveal neovascularization after unilateral intravitreal injection of triamcinolone acetonide, 1073

Verteporfin photodynamic therapy for the treatment of persistent subfoveal choroidal neovascularization after external beam radiotherapy: one-year results, 561

Subretinal fluid
Idiopathic macular hole with extensive subretinal fluid: clinical and optical coherence tomography features before and after surgery, 383

Superior temporal sclerotomy
Evisceration via superior temporal sclerotomy, 78

Suprachoroidal hemorrhage
Delayed suprachoroidal hemorrhage and factor VIII deficiency, 195

Surgery
Clinical characteristics and surgical outcomes of pediatric rhegmatogenous retinal detachment in Taiwan, 1067

External (subciliary) vs internal (transconjunctival) involutional entropion repair, 482

Indocyanine green-assisted internal limiting membrane removal in epiretinal membrane surgery (letter), 389

New micro vertical scissors for the surgical ablation of retinal angiomatous proliferation, 377

Recurrent retinal angiomatous proliferation after surgical ablation, 917

Surgical management of premacular membranes in children, 184

Surodex
Use of Surodex in phacotrabeculectomy surgery, 927

Syphilis
Phthisis bulbi caused by late congenital syphilis untreated until adulthood, 545

T

***TACSTD2* gene**
Novel missense mutation in a Japanese patient with gelatinous droplike corneal dystrophy, 186

Taser
Taser penetrating ocular injury, 713

Tear film
Corneal barrier function, tear film stability, and corneal sensation after photorefractive keratectomy and laser in situ keratomileusis, 64

Telemedicine
Telemedicine program for diabetic retinopathy in a Veterans Affairs Medical Center—the Joslin Vision Network Eye Health Care model, 597

Telescope
Prospective multicenter clinical trial to evaluate the safety and effectiveness of the implantable miniature telescope (letter), 395

Tenth nerve palsy
Sixth and tenth nerve palsy secondary to Pseudomonas infection of the skull base, 918

Terrorism
Terror-related open-globe injuries: a 10-year review, 937

Thrombosis
Extensive upper-extremity venous thrombosis after fluorescein angiography, 928

FXII deficiency is neither a cause of thrombosis nor a protection from thrombosis (letter), 578

Tono-Pen XL
Clinical evaluation of the accuracy of intraocular pressure measurement by Tono-Pen XL in eyes with amniotic membrane patching, 570

Toxocariasis
Fuchs heterochromic cyclitis and ocular toxocariasis, 915

Toxoplasma gondii
Genotype of _Toxoplasma gondii_ strains causing ocular toxoplasmosis in humans in Brazil, 350

Toxoplasmosis
Genotype of _Toxoplasma gondii_ strains causing ocular toxoplasmosis in humans in Brazil, 350

Trabecular meshworks
Selective laser trabeculoplasty (SLT) complicated by intraocular pressure elevation in eyes with heavily pigmented trabecular meshworks, 1110

Transconjunctival pars plana vitrectomy
New non-trocar system for 25-gauge transconjunctival pars plana vitrectomy, 1130

Transconjunctival sutureless vitrectomy
Longer-term outcomes of transconjunctival sutureless 25-gauge vitrectomy, 831

Transplantation
Technique to harvest Descemet's membrane with viable endothelial cells for selective transplantation, 325

Transpupillary thermotherapy
Treatment of CNVM secondary to idiopathic juxtafoveal retinal telangiectasis by transpupillary thermotherapy (letter), 577

Trauma
Blinding keratoconjunctivitis and child abuse, 190

Bone from an orbital floor fracture causing an intraocular foreign body, 543

Fishing-related ocular trauma, 488

Glaucoma following penetrating ocular trauma: a cohort study of the United States Eye Injury Registry, 100

Ocular injury in children from exploding microwave eggs, 718

Photodynamic therapy in young patients with choroidal neovascularization following traumatic choroidal rupture, 726

Taser penetrating ocular injury, 713

Terror-related open-globe injuries: a 10-year review, 937

Travoprost
Abdominal cramp as an adverse effect of travoprost, 202
Corneal sensitivity changes following the instillation of latanoprost, bimatoprost, and travoprost eyedrops, 742

Triamcinolone acetonide
Cataract progression after intravitreal triamcinolone injection, 993
Intereye difference in exudative age-related macular degeneration with minimally classic or occult subfoveal neovascularization after unilateral intravitreal injection of triamcinolone acetonide, 1073
Intracameral triamcinolone helps to visualize and remove the vitreous body in anterior chamber in cataract surgery (letter), 756
Intraocular pressure rise after intravitreal triamcinolone (letter), 575
Intravitreal triamcinolone acetonide for choroidal granuloma in sarcoidosis, 1116
Intravitreal triamcinolone acetonide for cystoid macular edema in nonischemic central retinal vein occlusion, 860
Intravitreal versus retrobulbar injections of triamcinolone for macular edema associated with branch retinal vein occlusion, 972
Management of intractable glaucoma following intravitreal triamcinolone acetonide (letter), 575
Posterior subtenon triamcinolone acetonide for refractory diabetic macular edema, 290
Relation between reduction of foveal thickness and visual acuity in diabetic macular edema treated with intravitreal triamcinolone, 802
Triamcinolone acetonide concentration after filtration of the solvent agent, 712

Tumor necrosis factor
Regression of neovascular age-related macular degeneration following infliximab therapy, 537

U

Ultrasonic fragmentation
Removal of the intruding Miragel's scleral buckle by pars plana ultrasonic fragmentation, 209

Ultrasonography
High-resolution ultrasonography in central serous chorioretinopathy, 550
Stage 3 macular hole: role of optical coherence tomography and of B-scan ultrasonography, 814

Ultrasound
Corneal thickness measurement by confocal microscopy, ultrasound, and scanning slit methods (letter), 391

Uveitis
Acute unilateral leukemic hypopyon in an adult with relapsing acute lymphoblastic leukemia, 719
Bilateral uveitis in a patient with autoimmune lymphoproliferative syndrome, 562
Development of complications in patients with chronic anterior uveitis, 988
Psoriatic uveitis: a distinct clinical entity?, 106
Risks of computerized tomography in the evaluation of chronic uveitis (letter), 951
Uveitis-associated flap edema and lamellar interface fluid collection after LASIK, 1137
Valganciclovir therapy for immune recovery uveitis complicated by macular edema (letter), 216

V

Valganciclovir
Valganciclovir therapy for immune recovery uveitis complicated by macular edema (letter), 216

Varicella zoster virus keratitis
Chronic recurrent varicella-zoster virus keratitis confirmed by polymerase chain reaction testing, 1135

Vascular endothelial growth factor
Expression of VEGF and angiopoietins in subfoveal membranes from patients with age-related macular degeneration, 589
Measurements, biomarkers, and interpretation (editorial), 710
Vitreous levels of angiopoietin 2 and vascular endothelial growth factor in patients with proliferative diabetic retinopathy, 476

Venous thrombosis
Extensive upper-extremity venous thrombosis after fluorescein angiography, 928

Verteporfin
Functional changes after photodynamic therapy with verteporfin, 214
Verteporfin photodynamic therapy for the treatment of persistent subfoveal choroidal neovascularization after external beam radiotherapy: one-year results, 561

Videoreflective dacryomeniscometry
Videoreflective dacryomeniscometry in normal adults and in patients with functional or primary acquired nasolacrimal duct obstruction, 493

Visual acuity
Acute-onset endophthalmitis after cataract surgery (2000–2004): incidence, clinical settings, and visual acuity outcomes after treatment, 370, 983
Foveal photoreceptor layer and visual acuity loss in central serous chorioretinopathy, 87
Gaze-dependent and time-restricted visual acuity measures in patients with infantile nystagmus syndrome (INS), 716
Intravitreal versus retrobulbar injections of triamcinolone for macular edema associated with branch retinal vein occlusion, 972
Ocular higher-order aberrations in eyes with supernormal vision, 225
Posterior subtenon triamcinolone acetonide for refractory diabetic macular edema, 290
Relation between reduction of foveal thickness and visual acuity in diabetic macular edema treated with intravitreal triamcinolone, 802
Vision-related quality of life in patients suffering from age-related macular degeneration, 271

Visual cortex
Near-infrared spectroscopy of the visual cortex in unilateral optic neuritis, 353

Visual disturbances
Transient visual disturbance after photodynamic therapy (letter), 748

Visual field loss
Rate of visual field loss in optic nerve head drusen, 1062

Visual impairment
Detecting cataract causing visual impairment using a nonmydriatic fundus camera, 725

Vitamins
Herb and vitamin supplementation use among a general ophthalmology practice population, 522

Vitrectomy
Longer-term outcomes of transconjunctival sutureless 25-gauge vitrectomy, 831

Pars plana vitrectomy with removal of the internal limiting membrane in the treatment of persistent diabetic macular edema, 447

Vitrectomy surgery increases oxygen exposure to the lens: a possible mechanism for nuclear cataract formation, 302

Vitrectomy with or without arteriovenous adventitial sheathotomy for macular edema associated with branch retinal vein occlusion (letter), 1146

Vitreomacular traction
Epiretinal pathology of diffuse diabetic macular edema associated with vitreomacular traction, 638

Tomographic features and surgical outcomes of vitreomacular traction syndrome, 112

Vitreopapillary traction
Gaze-evoked amaurosis from vitreopapillary traction, 631

Vitreous body
Intracameral triamcinolone helps to visualize and remove the vitreous body in anterior chamber in cataract surgery (letter), 756

Vogt-Koyanagi-Harada syndrome
Comparative study of two sets of criteria for the diagnosis of Vogt-Koyanagi-Harada's syndrome, 1080

Retinal cystoid spaces in acute Vogt-Koyanagi-Harada syndrome, 670

Voriconazole
Management of endogenous fungal endophthalmitis with voriconazole and caspofungin, 135

W

Wavefront sensing
Making sense out of wavefront sensing, 335

X

Xanthoma disseminatum
Xanthoma disseminatum with bilateral epibulbar involvement, 557

X-linked cone-rod dystrophy
Histopathologic study of X-linked cone-rod dystrophy (CORDX1) caused by a mutation in the *RPGR* exon ORF15, 386

Z

Zero diopter intraocular lens
Preliminary efficacy and safety of zero diopter lens implantation in highly myopic eyes, 914
